MINNEAPOLIS, March 31, 2022 /PRNewswire/ -- Fresh Vine Wine, Inc. (NYSE American: VINE), the premier producer of premium lower carb, lower sugar, and lower calorie wines in the United States, today reported strong financial results for the three months and fiscal year ended December 31, 2021, including year-over-year annual revenue growth of 681% from \$217 thousand in 2020 to \$1.700 million in 2021.

Janelle Anderson, CEO of Fresh Vine Wine, Inc., said, "I am extremely proud of our team, which grew the business both for the year and sequentially in the fourth quarter by executing on extremely aggressive marketing and go-to-market strategy, while concurrently completing our IPO. This reflects an inflection in the company's growth trajectory and is indicative of the results we expect this year. We have already put the IPO proceeds to work building our brand, investing in our people, and procuring inventory. In the first quarter of 2022, we added over 1,000 new points of distribution (PODs), which is more than twice the 900 PODs we had at time of IPO. We believe that this leading indicator, coupled with our increased inventory levels, suggest accelerating revenue growth and strong first quarter results."

Ms. Anderson continued, "The speed of our expansion is remarkable, which speaks to the quality of our sales and marketing strategy and the pedigree of our organization. Our success reinforces the viability of consumer demand for our category-defining, premium tasting brand of lower carb, lower sugar, lower calorie wines. We plan to continue this positive trajectory in 2022 by introducing new product offerings and expanding our marketing efforts, in part by leveraging the 30 million-plus social media followers of our celebrity spokespeople and co-founders, Nina Dobrev and Julianne Hough. It is encouraging and rewarding to begin this year with significant positive momentum."

Fourth Quarter and Fiscal Year 2021 Financial Results and Commentary

Net revenue in fiscal 2021 was \$1.70 million, up from \$217,000 in fiscal 2020. Growth was primarily attributable to our increased presence in the wholesale market, where we significantly expanded our distributor network and geographic presence, and the introduction of our wine club, which drove direct-to-consumer sales. Of total 2021 revenue, \$773,000 was from our wholesale distribution channel and \$774,000 was from our direct-to-consumer sales channel. As fourth quarter revenues were affected by an inventory drawdown precipitated by very strong demand, the Company used this period to accelerate the timing of the launch of its Strategic Services segment, which netted over \$150,000 of revenue in the quarter, and is expected to continue quarterly in fiscal 2022. Selling, general and administrative expenses were \$4.79 million for the fiscal year ended December 31, 2021, compared to \$1.33 million for the fiscal year ended December 31, 2020, largely driven by increases in Selling, Marketing and General & Administrative expenses. The year-over-year increase in Marketing expenses primarily resulted from our sports marketing partnerships while the increase in General & Administrative expenses is the result of increased salaries and wages needed to support the growth in sales. Selling expenses generally follow our sales volume growth. The Company reported a net loss of \$9.97 million, or (\$1.12) per share, for fiscal 2021, compared to a net loss of \$1.29 million, or (\$0.21) per share in fiscal 2020.

Liquidity and Capital Resources

- The Company's cash and cash equivalents balance as of December 31, 2021, was \$16.1 million. The Company has no material debt.
